

## Rite of Transmutation

As given by the Archangel Metatron

All Beloved, let us go now to the still space in the chambers of our hearts, where we are One with Mother-Father God, and beyond, where we are One with the One Consciousness at the source of all Creation. Here lies the door to the Temple of the Outer Light where all things become manifest.

Let each One of us put aside our cares and concerns of our human life now, and be still in the Oneness with the Mind and Heart of Mother-Father God. Let us now enter through the door of the Temple, welcomed by the Angel of the Presence.

Purified by the Pillar of Rainbow Fire and washed in the Waters of Eternal Love which flow from the wellspring in the heart of Mother-Father God, we come now again to the Temple to transmute our human being into divine human being.

All Beloved, let us enter now once again into the inner room of the Temple, where the Pillar of Rainbow Fire illuminates and sustains all Creation.

All Beloved, Into the Pillar of Rainbow Fire, we cast all of our fears and judgments. We cast into the Rainbow Fires all the karmic patterns of our genetic lines and all unresolved karma which we have created through living this life or any other. We cast into the Rainbow Fires all of our shame, blame, guilt and regret and our unworthiness before God and other humans. We cast into the Rainbow Fires all our illnesses, diseases and dysfunctions of our physical bodies.

We cast into the Rainbow Fires all that feeds our ego rather than our soul and spirit. We cast into the Rainbow Fires all of the limitations and restrictions we have placed upon ourselves in any aspect of our being. We cast into the Rainbow Fires all that keeps us locked in the illusion of separation from other humans, from nature and the Earth, and from the heavens and the experience of divine union.

As all that no longer serves us is melted away, only the gold of illuminated divine consciousness remains. As our karma is transmuted, we are no longer separate from one another. We are now given the freedom to know and explore our divinity and to know and explore our humanity without fear. We are given the gift of Grace.

All Beloved, we are now illuminated in our divinity as well as humanity. We are reborn in higher consciousness through the Light and Love of Mother-Father God. We are Many who are One and One who is Many. Let Heaven and Earth be joined, now and forever.

All Beloved, let us now receive the blessing and benediction of Mother-Father God, as One with Them, within ourselves and with one another. In Grace, let us embrace our humanity and our divinity. As One and Many, Many and One, let us dwell in Light and Love, now and forever.

And so it is, in the Name of Mother-Father God.
